Ensuring Safety & Service

To improve the safety and efficiency of our company, we are in the process of adding a routing program in all our trucks. This program will allow our drivers to run routes without needing to flip through papers and will also time stamp when a container is lifted to be emptied, as well as, when it is placed back onto the ground

The driver is also able to see a map of his/her entire route for the day. This feature will help keep the driver on track and find locations quicker because of the mapping and geocoding capabilities. Our dispatchers are able to follow the routes throughout the day and see the percentage of a route that has been completed, as well as, any scheduled stops that the driver skipped due to containers not being out or perhaps blocked by a vehicle.

Once the driver marks a container dumped, it will mark the account completed for the day. When a customer calls in an extra or missed pickup, we are able to schedule the pick up and the order will show up on the drivers route screen immediately. Once the pick up has been completed, the information will then be downloaded into our system in the office.

We believe this new tool will increase our ability to continue to provide our customers with a cost effective and efficient waste and recycling collection service.

Preparing for the cold weather

Don't forget the ice melt

It's not always just the snow. Ice can also be the reason for non service. Make sure the area in front of your container gets a little ice melt.

Plowing

There are still a few months before the cold winter snow starts falling, remember to keep the area around your container clear so it can still be accessible to the driver.

Overloads

Be prepared for all the excess trash. The fall and winter months are known to be big trash months. Plan ahead and call in if you would like to make changes to your service.

Hot Loads

Always remember to let ashes sit and cool or hose them down before placing them in your container. A hot load can cause quite a mess

Fall Clean up

Do you need to clean things up before the cold weather arrives? Give us a call and order your Roll Off dumpster today.

Charity Golf Tournament

For the past three years Ace Disposal has sponsored the tournament **"Tee off for Shelter"**. Ace Disposal underwrites all costs of this event and the proceeds collected go directly to a nonprofit organization called The Road Home.

The Road Home assists the homeless throughout the Salt Lake Valley and is dedicated to help people who are struggling with homelessness find a way back into the community.

With each passing year, the golf tournament is more successful then the last; and we hope to keep the momentum going for many years to come. The success of this tournament means a great deal to Ace Disposal, and we appreciate all the help and support.

We raised \$23,015.00 this year. Thank you to everyone involved!

What's New

We have expanded our single stream recycling service area!

We now provide recycling service to businesses and residential communities in

Salt Lake County

Tooele County

Utah County

Davis County

Weber County
