

ACCEPTABLE AND UNACCEPTABLE SOLID WASTE

Your cooperation is greatly appreciated and will ensure a successful and safe waste collection program. If you have questions please call us at 800-724-9995. Thank You.

ACCEPTABLE SOLID WASTE

Normal trash collection is intended for Household-Type Waste. These are materials that are usually generated from within a business or residential environment such as: food waste, paper, plastics, glass, metals, etc., and other nonhazardous domestic-type waste.

UNACCEPTABLE SOLID WASTE

Unacceptable Solid Waste: Appliances, Furniture, Electronics, Couches, Mattresses, Large Bulky items not fitting in a container, Tires, Carpet/Padding, Construction Debris, Dirt, Rocks, Landscape Debris etc. will not be collected.

Hazardous Waste: Lithium Ion & Vehicle Batteries, Motor Oil, Paints/Solvents/Cleaners, Pesticides, Compressed Fuel Tanks, Flammables/Explosives etc. will not be collected.

Medical and Biohazardous Waste: Sharps, Blood, Body Fluids/Parts, Dead Animals, etc. will not be collected.

PLEASE NOTE:

Care must also be taken NOT to overload a container. Overloaded containers can create safety risks; containers overloaded by excess weight and/or volume may prevent a container from being serviced and subject to overload fees.
