"LET'S TALK TRASH."

We know trash! We haul over 2500 Tons, or Five Million Pounds of waste and recyclable materials every single day, which add's up to over One Billion Pounds of waste a Year!

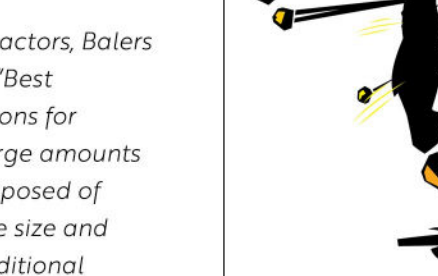

We've been in the recycling and disposal industry since 1980. "Trash will NEVER Stop!" The need for trash removal and qualified people to do that job will always be needed. ACE Recycling & Disposal is dedicated to "Keeping Our Communities Clean." Our passion for making the world a cleaner place for us, our children, and our grandchildren has never stopped.

Scan the QR Code below to watch our video and learn more about how we can help you with all your recycling and waste disposal needs today. Thank you.

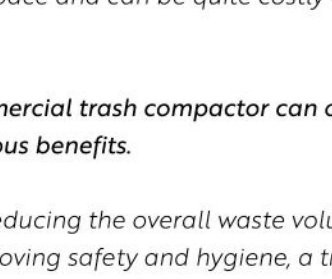

Recycling & Disposal

We service over 64 cities in Utah and 9 cities in Wyoming, which is over 337,000 Carts. We service 8 School Districts, The Utah State Prison and the University of Utah. We also service over 18,000 commercial clients. This equates to Over 1 Million People served each week.

TRASH, SMASH

Waste Engineering

AARCO was established in 2003 to help businesses engineer the right waste system that is clean and efficient.

Using State of the Art Compactors, Balers and Material Management "Best Practices" to engineer solutions for wastes that generate large amounts of waste that need to be disposed of efficiently. Depending on the size and location of the business, traditional waste disposal methods can take up a lot of space and can be quite costly and messy.

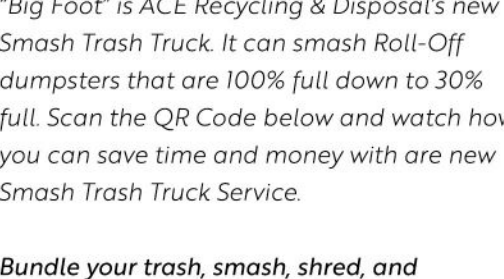

A commercial trash compactor can offer numerous benefits.

From reducing the overall waste volume to improving safety and hygiene, a trash compactor is a valuable investment that can save businesses money and improve their overall operations.

Recycling

The truth about recycling in Utah? It's still a thing.

The responsible thing to do. At ACE Recycling & Disposal we are committed to sustainability. Because we know that the vast majority of Americans support recycling. Why? Recyclers Save Energy and Resources, Reduces Landfills, Reduces Greenhouse Gases, Sustains the Environment, Creates Jobs, and Gives Garbage New Life.

But we need your help to keep the Recycling Stream Clean!

Yes. There are a lot of products that are recyclable. However, NOT a lot of products are worth recycling. Knowing what to recycle and why is the key to a successful, sustainable recycling program. The Four Key Recyclable products that we are looking for are CLEAN Paper, Cardboard, Cans, and Plastic Bottles.

That's it. It's that simple.

Proud winners of the 2023 NCV Achievement Award. This award recognizes outstanding contributions like ACE Disposal running 67% of it's fleet on Natural Gas.

YASTROW & CO

In November of 2023, we hired Yastrow & Co, a third party independent marketing company to talk with a number of our clients to see how we are doing to service there needs. Below are some of the comments we received.

Competitive Pricing?

"The competition comes in with a really nice first year contract, but there are all sorts of fees and to get out of the contract is really hard. With ACE Disposal, even if there are price increases, we feel like the contracts are more easily understood."

Brad Randall
Welch Randall Real Estate

Reliable Service?

"They do everything for us and make my job very easy, and very simple. We don't hear any complaints they handle everything."

Rawlins Thacker
South Jordan City

Compared To The Competition?

"When we work with vendors, we need quick response time and a body to talk to. We need a local vibe as opposed to a big corporation. The big corporations are too big. We need someone like ACE, we have one person to talk to and if we have a problem or want to change a service, they just take care of it and move along. We always have someone to go to even though they are growing. I don't have plans to go to a different company because of the headaches of going to the other providers."

Dallas Reid
Woodbury Corporation

"Hauling Over 5 Million Pounds of Waste Everyday and Serving Over 1 Million People Each Week."

"LET'S TALK DUMPSTERS & ROLL-OFFS."

We provide a variety of dumpsters and Roll-Offs. From two yard dumpsters to 30 yard Roll-Offs. We've got you covered. Call us today and we'll help you figure out the best solution for your Trash, Smash, Shred and Recycling. There are no jobs too small or too large. So, call us today and "Let's Talk Trash!"
